

# SUMMER @ CMDS

## 2019 Weekly Themes

### June 3-7: Express Yourself

Campers will experience many fun camp favorites this week. Activities will encourage confidence and courage in our campers, especially when making new friends. We'll spend most of our time outdoors, engaged in fun activity rooms and sensory-infused fun. If you like being active, channeling your creativity, expressing yourself, getting messy, learning new skills or making friends, this is the place!

### June 10-14: Celebrate Good Times

Have you ever wondered how other cultures celebrate holidays? This week we'll learn exactly that, and celebrate some favorites, including Valentine's Day, Easter, Halloween and Christmas. Be ready for some fun in the sun with an egg hunt, birthday party and more! From holidays to birthdays and the days in between, join us as we celebrate, create and enjoy the festivities.

### June 17-21: VBS at CUMC

This week your child will participate in Vacation Bible School at Christ United Methodist Church. No need to register for VBS; we will register them for you. Rising PK campers will not participate in Christ Church's VBS but will have related activities this week.

### June 24-28: MessTival

Get ready to slip n' slide into the messiest week of summer camp! What makes for an awesome camp game? Of course, the answer is chocolate syrup, whipped cream, marshmallows, cereal, soap, and possibly even pickles! Everyone needs at least one week to get covered in shaving cream, dirt and mud. There will be massive water balloon fight to round out the week and wash off some grime!

### July 8-12: H2-Oh My Goodness!

Campers should come ready to get WET this week! We'll learn, educate, play and grow with nature's best drink: water! This week will focus on Water Sports, Water Engineering and Team Work! Activities will stimulate brains and bodies, and of course, will include lots of extra H2O fun! In the heat of the summer this is a great way to cool off!

### July 15-19: Blast Off

Get ready to blast off into a fun week of camp! From Coke bottle explosions to Eclipse Ball, the games will be out of this world! Everyone will have fun this week as we strive to incorporate character and team-building games, as well as fun and engaging activities for every type of camper.

### July 22-26: Edible Engineering

Edible Engineering combines physical science and foods to captivate even the most reluctant camper. Come on in to play with your food while learning the science behind it. You may even get a major sugar rush! From marshmallows to Pop Rocks, this is a tasty week for food experiments. The best part about this week might just be a visit from MemPops!

### July 29-Aug. 1: Wild About Wildlife (Closed on Friday, August 2)

Don't think summer has any more surprises? Try adding a few animals! We'll learn about different animals and conservation. It'll be a wild time of stimulating education about nature and instilling respect for the environment in our campers. Building environmental knowledge will captivate, engage and challenge campers all while having a WILD time with our furry friends!

Summer@CMDS will be closed:

- May 27-May 31
- July 1-5
- August 2
- August 5-9
